## Guidelines

### for the organization of the WUBOX IGP international championship and competitions

Insofar as gender-related terms are used in these specifications, they include women and men equally.

These specifications have been approved at the meeting of the community of interest WUBOX held in Frankfurt (Germany) on 8th February 2020.

#### Transitional provisions

There is a transition period of 2 years (2020 and 2021) to make it easier for the organizers to start with the WUBOX championships. During this period, in consultation with WUBOX, the specifications for the facilities of the event locations can be relaxed.

#### 1. Application and award

1.1. The “WUBOX IGP international championship and competitions” are held each year in the period between the second weekend in April and the second weekend in May. National organizations, that would like to organize these championships, must apply in writing to the chairman of the WUBOX working commission at least two years beforehand.

The application must contain:

- The name of the national organization
- The venue of the event and the binding date
- The name and address of the person in charge of organizing the event.

1.2. The WUBOX Working Commission reviews the received applications by the national organizations; afterwards the applications will be given to the community of interest WUBOX with a recommendation of the WUBOX working commission. The community of interest WUBOX assigns the event to a national organization by majority vote.

1.3. The national organization, which is assigned to organize the WUBOX IGP international championship, shall bear full responsibility for the smooth and trouble-free running of the championship.

1.4. Not later than January of the year the national organizations are to be invited by the organizing national body. At that time, an internet presence should be online (website) with information about persons in charge, accommodation, registration form, map and directions, sites for campers and caravans, etc.

1.5. The amount of the registration fee is left to the organizing national organization, but may not exceed 100.- €. The organizing national organization is subsidized by WUBOX. The grant currently is 1.000.- €.

## **2. Organization**

- 2.1. A catalogue, with information about participants and a schedule must be published. The participating countries have to be listed in alphabetical order and in the language of the national organization. The participants receive a catalogue number or a start code. That start code is to wear as number by the participants visible during the whole competition. The most important parts of the catalogue must be written in the two WUBOX languages German and English.
- 2.2. Throughout the duration of the event, the arena/stadium of the event will be decorated with the flags of the participating national organizations and the WUBOX flag. The donated honorary prizes can be listed in the program.
- 2.3. All results must be regularly entered on a results board easily visible to the public respectively updated online on the organizer's website.

## **3. Trial Chairperson**

- 3.1. The national organization running the event shall provide a qualified trial chairperson for each section, whose work shall include, in particular:
  - Technical running of the trial
  - Provision, planning and equipment of a sufficiently large track area
  - Providing a sufficient number of qualified helpers (stewards, tracklayers, guides, helpers for phase C, office staff, interpreters, etc.)
  - Preparing the evaluation sheets for the trial judges
  - Quick and reliable working out of the trial results to determine the winner and order of placing

## **4. Trial grounds and course of events**

- 4.1. The WUBOX IGP international championship shall be held in accordance with IGP-3, the competition level 2 in accordance with IGP-2 and the competition level 1 in accordance with IGP-1. Obedience and the phase C (protection phase) have to be carried out in an arena with a well-tended lawn. If law in the country where the WUBOX IGP international championship is held prohibits the stick test, the soft stick can only be used to threaten the dog.
- 4.2. There must be a covered stand to protect spectators from bad weather. Sufficient car parking spaces must be provided for competitors and spectators in front of and near the arena. A canteen must also be available, in the arena where possible, to cater for the competitors, spectators and helpers.
- 4.3. The tracking ground should enable all competitors to have the same conditions. The ground does not have to be of one uniform type; alternative grounds such as meadows, fields and ground with low plants can also be used. Obstacles such as fences, ditches, etc. are permitted as long as overcoming them does not cause the dog or the handler any undue difficulties. The area that was used on Friday can be used again on Sunday. The track supervisor is to be given

a sketch of the ground in a scale of 1:5000 showing the tracks. There must be at least three qualified tracklayers available.

- 4.4. The organizing national organization ensures a guide service respectively a transport service to the track area for participants and spectators.
- 4.5. A time schedule is to be drawn up showing the presentation time for each competitor. This time schedule must be compiled in such a way that each competitor has a period of at least two hours between the individual trial sections (bitches in season are given a thirty-minute break between obedience and protection work). The order of the trial sections can be different.
- 4.6. The competitors are to be allocated a corresponding training ground for tracking training.
- 4.7. The day before the WUBOX IGP international championship the teams are to be given time for training in the arena for the obedience and protection sections. The time available is to be divided among the number of competitors, whereas the minimum time for one competitor is 5 minutes at least. The training schedule has to be announced to the team leader and published at the official homepage respectively. The training has to be supervised by a qualified person appointed by the organizer.
- 4.8. A veterinary check is to be carried out before commencement of the trials. Dogs that appear sick and are suspected of being infectious are not admissible. Bitches in season are admissible on condition that they are kept separate from the other competitors and are the last to compete in the obedience and protection phases. The veterinary check must be completed before the draw. One of the acting judges has to be present and is responsible for the temperament check. At the same time, the identity has to be checked by the chip. Without veterinary control, the start at the event is not possible.
- 4.9. Before the start of the competition, a trial judge carries out a line inspection. Lines in the correct nature and length must be marked.
- 4.10. The helpers actually used for the different competitions (champion class, IGP-2, IGP-1) are to be chosen from a minimum of four protection helpers made available by the organizer, with the choice made by trial judge for the phase C. The choice should be in camera. The protection helpers must use the protective clothing, e.g. protective sleeve, protective trousers, determined by the FCI.
- 4.11. The ownership and/or the use of E-devices, prong collars, devices for electro shocks and any other means of coercion within the sphere of the WUBOX international championship shall lead to disqualification, regardless of the legal situation in the organizing country. The handler of the dog is liable for any caused damage. Any accusation must be accompanied by written evidence and witnesses.
- 4.12. Before commencement of the championship, the chairman of the WUBOX working commission or a member of the WUBOX working commission shall convene a trial judges meeting to be attended by the track supervisor, the trial judges and the person in charge of organization. For a good communication, the organizer has to provide interpreters.

- 4.13. Before commencement of the championship, the chairman of the WUBOX working commission or a member of the WUBOX working commission shall convene a team leader meeting to be attended by the track supervisor, the trial judges the person in charge of organization, the trial chairpersons and the team leaders. At the team leader meeting, the order in which the countries are drawn is determined by drawing lots. The competitors from the organizing country shall get the final lot. For a good communication, the organizer has to provide interpreters.
- 4.14. Obedience and the work in phase C (IGP-3) are to be demonstrated in the arena with the selected helpers to ensure that the desired sequence is clear to every competitor. The organizer has to make available at least two trial dogs (Boxer).
- 4.15. The draw for the starting order (groups) is to be conducted in public on the evening before the WUBOX IGP international championship. The catalogue number with the lot number (tracking group) assigned by the draw must be made visible to all the competitors. The competitors from the organizing national body shall be the last to take part in the draw for the group numbers. The starting order within the groups will be determined by drawing lots in the field on both days, immediately before the first start in the particular group.
- 4.16. The length of the tracks can be shortened in consultation of the person in charge for organization with the judge in section A and the track supervisor. The length determined for the tracks and information about the ground is to be made known to the competitors. Samples of the articles used have to be published on the official homepage of the organizer before the championship.

Positions and distances are to be marked using white chalk or spray. The used items (hurdle, climbing wall, dumbbells, and blinds) have to be published on the official homepage of the organizer before the championship.
- 4.18. All participants are obliged, regardless of the result, to attend the award ceremony. Staying away will result in disqualification due to unsporting behavior. The event ends with the award ceremony or the handover of the scorebooks to the participants. At the closing ceremony, the results of the individual scores (competition level 1, level 2 and champion class) shall be announced first and then the national rankings (each starting with the 3rd place, followed by the 2nd and the 1st).
